Art Unit: 3634

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1,2,3,12,13,19,4,5-11,20,21, drawn to an umbrella rack classified in class 211 sub. 62.

Group II, claim(s) 14,15,16,17,18,22,23,24, drawn to a locking mechanism classified in class 211 sub 4.

Because these inventions are independent or distinct for the reasons given above and there would be a serious burden on the examiner if restriction is not required because the inventions have acquired a separate status in the art in view of their different classification, restriction for examination purposes as indicated is proper.

Applicant is advised that an election of a single group for prosecution is required in response to this office action even if the restriction is traversed.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Sarah Purol whose telephone number is 571-272-6834. The examiner can normally be reached on Monday through Thursday.
